

Claire Gilbert

I joined the governing body as an associate member in 2016 and was then elected as a parent governor. I've been chair since Autumn 2019. I have two boys who attend the school and we live in Kennington.

My professional background is in publishing and digital technology, where I have developed skills of project and people management. Prior to becoming a governor I was involved with the local youth club, helping to set up a coding club for young people in the village.

I am deeply committed to helping all children exceed their potential and have a happy, enriching educational experience.
